ARM= Adjustable Rate Mortgage

ARM rate adjustments are determined by an index and margin, the index of which is variable and therefore unknown for future payments.

Rates and/or points are subject to change at any time until you apply for a loan and "lock-in" a rate. Your actual rate and/or points may be different, as many factors go into providing you with a mortgage loan. Rates and points vary widely for loan amounts above \$453,100** (see below), and/or for investment property loans.

**Jumbo rates are for loan amounts exceeding \$453,100 (\$679,650 in Alaska, Hawaii, Guam and the U.S. Virgin Islands). For properties in New York, add .250 loan origination fee.

Each quote above represents a "lock-in" period of 30 days, meaning that if you applied for a loan today and choose to "lock-in." We will guarantee the rate and points for 30 days.

Each quote based on a purchase money mortgage with a minimum loan amount of \$100,000 (except Jumbo loans).

Taxes and insurance not included, therefore the actual payment obligation will be greater. Your actual rate may be higher depending upon your creditworthiness.
